Volume 5, Issue 10

A Letter From Paul

Dear EAA Chapter President,

Another year will soon be coming to a close. Some of you have served as Chapter President for a number of years, while some have only served a year or two. Quite possibly, you've learned more about people during that time than about airplanes.

While reading the thousands of Chapter newsletters over the years, including those published this year, aviation has been made richer because of your efforts in the Chapter. I liken them to an aviation "church" (over a thousand of them) not only in our fine country, internationally as well. As I've said so many times, EAA is an aeronautical, educational and social organization with high standards that have moved aviation forward in a manner no other organization has accomplished. It was some 50 years ago – several years after the founding of EAA, when Ray Stits of Riverside, California contacted me regarding the forming of an EAA Chapter. He and several others were interested in building airplanes at the Flabob Airport. We

President's Letter

Our present roster includes 105 members who participate in supporting the local communities in Orange, San Bernardino County and at Chino Airport.

EAA is dedicated to the discovery and fulfillment of individual potential and development through opportunities and challenges inspired by the dream of flight. Through its people-serving programs and activities, EAA both internationally and locally (Chapter 92) shares the spirit, traditions and standards of the Experimental Aircraft Association.

Our mission as the local chapter, with operations at Chino Airport, focuses upon EDUCATION, on the rich HERITAGE of man's quest for flight and on RESEARCH and INNOVATIONS accomplished by individuals in aviation.

Chapter 92 accomplishments include:

- Aviation skill development and training
- Numerous EAA members are directly contributing to the economy of Orange and San Bernardino County through resource utilization and active aircraft building programs
- Parts manufacturing
- Assembly & test
- Welding
- Engine rebuilding
- Avionics
- Rigging
- Composites
- Design and development
- Aerospace materials
- Mold, tool and die making

EAA chapter 92 members, in conjunction with our sister chapter War Birds Squadron 16 support both the local museums at Chino Airport

- Planes of Fame volunteers
- Yanks – All American Aircraft volunteers

Numerous active projects are under construction or restoration at Chino Airport

Continued on page 4

President's Letter *Continued*

- Mentoring, flight testing and transition flight training
- Community outreach

Introduction to flight for many youngsters that would not normally have access to the aviation industry

- Boy Scout of America – Aviation Merit Badge Program
- EAA National Young Eagle Program

Skill set development for young adults

- EAA projects build industrial arts capabilities
- Opportunities to participate with technical supervision earn hours toward airframe and power plant mechanics ratings

Provide opportunities for job development through hands-on aircraft maintenance and building “internship”

- Preservation of our aviation history

EAA directly contributes to the base business operation at Chino Airport

- Unique and historic aircraft restoration
- Direct contributions of time, talent and funds to Chino Airport based business

Chapter 92 will continued efforts to support our mission as a not for profit organization promoting aviation education, personal inspiration, maintenance of our history, our research and innovation to support the growth of airports and the local community.

We especially want to than John Frymyer and Chino airport for allowing us to have a place to conduct our operations that will support our aviation community.

Ray Hecker

President Chapter 92

A Letter From Paul *Continued*

thought it was a good idea and, as the Chapter program grew, they endured organizational challenges but continued to grow with excellent facilities and membership at Riverside.

I enjoy the Chapter President editorials featured in the newsletters, the leadership shown and, at times, the frustrations and ability to overcome them. The quality of information in the newsletters is a clear reflection on the dedication and work of the fine newsletter editors and writers who submit the material. E-mail seems to be a growing fad – at least to me. I guess I'm still in the old school of years past as this message is being written with pencil and paper... but more modern technology will take it from here.

Your organization started way back – January 26, 1953. It seems like it was yesterday when in November of 1952 I asked my wife, Audrey to send out postcards to a small group of fellows who I thought may be interested in the forming of a local (Milwaukee) airplane builders club. They showed up that wintry January night in a snow storm for a meeting in the dope and fabric shop at Curtiss Wright Airport (now Timmerman Field).

Living EAA every day since the year 1953, watching it grow and witnessing how it has changed lives “for the better” as we have so often been told by our members. The Chapter network has played an important role in this endeavor.

Please give your Chapter members our regards and a special thank you to your newsletter editor for putting those 26 letters of the alphabet into valuable news and building the togetherness we enjoy.

Sincerely,

Paul H. Paberejny

EAA Founder and Chairman of the Board

October 2007

West Coast Falco Fly-In

Here are some pictures that I took at the Fly-In. I had a great time and hope you all also had a great time. You can see more at:

October Young Eagles

Sat, October 27th EAA 92 Young Eagles Event at Chino

10:28 AM, Wed Sep 26, 2007

We can always use ground crew. You will have an opportunity to give a child a wonderful experience. Volunteers are needed for check-in, museum tour, teaching aircraft inspection, ramp safety and certificate printing. Come and Have a good time.

Pilots, you can influence the youngsters by giving them there first flight. I you meet the qualifications please sign up at the website.

Note: There is a new form that MUST be used for Young Eagles. Online forms printed from the web site can no longer be accepted due to new rules. If the parent/guardian cannot come to the event to sign the form then email me and I will try to mail a copy to them.

FOR THE LATEST INFO

Looking For WWI Aircraft

Hello Chapter 92,

I am helping Jerry Yagen <http://www.fighterfactory.com/> locate WWI era engines/airframes or replicas. Hispano-Suiza, Mercedes, Oberursel, Clerget, Siemens-Halske, Liberty, OX-5, other rotaries, etc. If you know of anything for sale or trade I'd appreciate any information.

I also do aircraft construction/restoration if I can be of service to anyone.

Sincerely,

Russ Lassetter, EAA# 0448996

Cleveland, GA
